Mounting Clips

## Update your recessed lighting to LED

Save time, money, energy AND improve the look and feel of your space

The LED Retrofit Downlight generates the look, feel and warmth reminiscent of incandescent lamps through seamless point source dimming and instant-on capabilities. Whether for new construction or retrofit projects, installation is easy, because it fits any 6" recessed can-style housing from any manufacturer.

#### ENERGY EFFICIENT

- 86% more efficient than incandescent
- Similar light output to a 65W BR30 bulb but only uses 8.9 watts
- Estimated energy cost only \$1.07 per year\*

#### SUPERIOR LIGHT

- Center2Edge™ mimics incandescent, full illumination to single-point dimming
- 3000K white light for 50,000 hours of operation (46 years)\*
- Deep recessed lens and baffle prevent glare

#### EASY INSTALLATION

- Includes torsion springs and clips for universal housing compatibility
- Includes medium-base (E26) socket adapter for easy install and a hardwire adapter for energy rebates
- Wet location listed for indoor applications

\*life and cost based on 3 hours of operation per day at \$.11/kWh
